

# WATERFRONT NEWS

## WIRELESS REPORTS OF ROUGH WEATHER

Wireless messages were received from no less than four vessels at Kahuku last night—the Chiyo Maru, Arcona, Alameda and Hilonian were all heard from.

The Chiyo Maru was 825 miles out from San Francisco, in fairly smooth water and a light southeasterly breeze. The Arcona sends word that she will arrive at two o'clock this afternoon.

The Alameda was 455 miles out from Honolulu, in rough weather, with a brisk southeasterly wind blowing. The Hilonian was 675 miles out, and reported rough water, with moderate southeasterly winds and occasional rain squalls.

These reports, coming all from between here and the mainland, prove conclusively that there is a big storm area coming down from the northwest towards the Coast and that southeasterly gales, followed by harder northwesterly gales, may be looked for for the next few days in any longitude near the Coast. Just how much this disturbance will affect these Islands, it is hard to say, but as long as the storm areas are passing to the southeastward instead of traveling east across the Canadian border, it is pretty safe to predict unsettled weather here.

### Local Notice to Mariners.

The following affects the List of Lights, Buoys and Daymarks, Twelfth Lighthouse Subdistrict, 1909, page 13:

### HAWAII.

Maui Island, Waialuku Coast—Waialuku Reef Whistling Buoy, reported on November 26, 1909, about 800 yards in shore from its correct position, has since worked about a half mile further in shore. It will be replaced as soon as practicable.

By order of the Lighthouse Board, V. S. HOUSTON, Lieutenant, U. S. N., Assistant to the Inspector, 12th L. H. District.

### Florence Ward Sails Monday.

The Florence Ward will sail for Midway Island next Monday, probably in the afternoon. She has been moored alongside the wharf at the foot of Fort street for some days, and has been taking on her cargo of Christmas things for the poor marooned little colony on the sandy isle in the middle of the Pacific.

The good little schooner will take no coal this time, as they have a plentiful supply at Midway. Instead she will take a full fifty tons of that much-

### LOCAL OFFICE OF THE UNITED STATES WEATHER BUREAU.

Honolulu, Thursday, December 2, 1909.

\* 66.6.

Note.—Barometer readings are corrected for temperature, instrumental errors, and local gravity, and reduced to sea level. Average cloudiness stated in scale from 0 to 10. Direction of wind is prevailing direction during 24 hours ending at 8 p. m. Velocity of wind is average velocity in miles per hour.

WM. B. STOCKMAN, Section Director.

FIRST GUN OF THE SALUTE FOR THE FLAG OF REAR-ADMIRAL REES

needed soil. Captain Piltz states that the vegetable beds there are doing wonderfully well.

The sand gets so warm that, if lettuce, or anything green is planted, no matter how carefully it is watered, it springs up so fast that it will almost as soon as it appears above the surface. This is obtained by using a top layer of soil brought from Honolulu, and shading the vegetables with screens. By this method they are able to raise fine lettuce, beets, watermelons and a few potatoes.

In addition to the soil, the Florence Ward will carry another consignment of shrubs and trees. The willow trees are doing finely, and some of the iron-wood trees are also flourishing. Captain Piltz says that, before he has made many more trips, he expects to see the island quite a mass of green. They revive wilting shrubs by doses of muddy water.

The Florence Ward has had entirely new standing rigging put on since she has been in port. The foremast side-stays, that gave way on her last trip, have been replaced by stouter wire, and, while this was being done, it was thought well to fix her main rigging, too. Forestays, ratlines and preventers have all been put in new, and she is now ready to take all the blow that comes along.

It is not generally known that the cable schooner has an enormous spinnaker that is used on the run from Honolulu to Midway. Stowed away in the forepeak is a forty-foot boom which they get out as soon as they are far enough from the harbor to get a fair wind. This is rigged on a goose-neck on the foremast, and the tight sail is hoisted to the peak of the foremast and swung out to the end of the boom. When she gets a live following breeze, the schooner kicks up her heels and reels off better than two hundred knots.

### Sheath on Melancthon.

The almost derelict barge Melancthon, sometime a windjammer of great and famous speed qualities, is being resuscitated. The government has decided to spend a little money and get her in working order, and with this end in view, has had her hauled out on the marine railway.

A large force of men is at work on her bilge and keel. The old caulking is being torn out, the worm-eaten places sawed out and refilled with new lumber, and, when she has been thoroughly cured and recaulked, she will be entirely "heathered," below the waterline, with copper.

Strangely enough, the ancient hulk is not badly damaged by the worms. Almost her entire port side is intact, while the leaks came from savage inroads of worms in only about six places on her starboard side. These places have all been dug out and filled in, and, with the majority of her timbers perfectly sound, her planking all sound and a watertight sheathing of copper, the Melancthon should be good for use as a barge from now until evermore.

### Arcona May Arrive.

The German cruiser Arcona is due to arrive from San Francisco, via San Diego, some time today.

### Thomas on Sunday.

The Thomas is due to arrive here from Manila tomorrow, but may not get here until Sunday morning, the time of her arrival depending very much on the weather she encounters between now and then.

### Hogs on Claudine.

The Claudine came in from Hilo and Maui ports yesterday morning, with a full passenger list and a good load of freight. Included in the latter was corn wood, corn, barrels of wine and a big bunch of hogs that enlivened the waterfront with squeals while they were being disembarked.

### THE MAILS.

Mails are due from the following points as follows:

San Francisco—Per Chiyo Maru, Dec. 7. Yokohama—Per Mongolia, today. Vancouver—Per Makura, Dec. 10. Colonies—Per Aorangi, Dec. 8.

Mails will depart for the following points as follows:

San Francisco—Per Mongolia, probably tomorrow. Yokohama—Per Chiyo Maru, Dec. 7. Vancouver—Per Aorangi, Dec. 8. Colonies—Per Makura, Dec. 10.

### TRANSPORT SERVICE.

Burford, A. S. F. from Hon., Oct. 15. Dix, at Seattle. Logan, at San Francisco. Thomas, from Nagasaki for Hon. Nov. 22. Sheridan, from Hon. for Manila, Nov. 14.

## MARINE REPORT.

By Merchants' Exchange.

Thursday, December 2, 1909.

San Francisco—Arrived Dec. 1, schr. J. H. Bruce, from Mahukona, Nov. 13. Hilo—Arrived, Nov. 28, schr. Kona, from Port Ludlow.

## PORT OF HONOLULU.

### ARRIVED.

Thursday, December 3. Str. Claudine, from Maui ports, a. m.

### DEPARTED.

Str. W. G. Hall, for Kauai, 5 p. m.

### DUE TODAY.

Ger. cruiser Arcona, from San Diego. Str. Mauna Loa, from Kona and Kauai ports, a. m.

### DUE TOMORROW.

U. S. A. T. Thomas, from Manila, p. m. or Sunday.

### PASSENGERS.

Per str. W. G. Hall, for Kauai ports, December 2.—D. L. Austin, A. Robinson, B. Waggoner, H. E. Cooper. Booked to Depart.

Per str. Claudine, for Maui ports and Hilo, December 3.—Mrs. C. H. Dickey, W. A. Baldwin, Mrs. Freeth, A. S. Robertson, Geo. H. Lucas, Mr. Knudsen, Mr. Hosmer, Mr. Margolin, Sister Magdalen.

C. Allen, Am. schr., Willer, Fort Bragg, Nov. 23.

## AIN'T GOIN' TO BE NO CORE IN THESE

SPOKANE, Washington, November 2.

Coreless as well as seedless are the apples produced on a single tree of unknown variety in an eight-acre orchard at Moran Prairie, five miles north of Spokane, owned by B. K. Short, a rancher. The largest of the fruit is three inches in diameter, the coloring being of a yellowish green, streaked with red. The apples have deep pink cheeks, and the flesh is firm and of excellent flavor. The tree is between 12 and 15 years old and is growing in sub-irrigated soil at an altitude of 2225 feet. Short does not claim credit for developing the coreless-seedless apple declaring it is a freak of nature.

Seven of the new apples were brought to the offices of the National Apple Show Inc., in Spokane, and quartered in the presence of Rea H. Rice, secretary-manager, Prof. August Van Helderbeke, formerly state commissioner of horticulture of Washington, and several growers from various parts of the northwest, but no one was able to classify the fruit. Prof. W. S. Thornber, horticulturist at the State College of Washington, has been delegated by J. J. Browne, regent of Spokane, to make a thorough examination of the tree to determine its origin.

Short has engaged three watchmen, each to work eight hours a day as guard in his orchard, to prevent injury to the tree. He intends to graft the scions on other trees the coming spring. Expert pomologists say if the process is successful he will have made a discovery of greater commercial importance than any yet credited to Luther Burbank and other plant wizards. They add that while the seedless apple is no longer a novelty, the production of a coreless one, long sought by growers throughout the world, is a distinct triumph in apple culture.

### NO EXPERIMENT.

You are not experimenting when you buy Chamberlain's Cough Remedy. You are getting a preparation that has an established reputation for good backed by a third of a century's constant use. It is famous for its prompt cures of coughs, colds, croup and whooping cough. For sale by Benson, Smith & Co., Ltd., agents for Hawaiian Islands.

## COLLEGE HILLS LOTS

Are being offered for sale at a price within your reach. The lots are large, being from one-third of an acre to one-half an acre in size. These lots are cleared—no rocks to be blasted, dug out and carried away. Water is laid in front of the lots, and many are curbed. The owners of this tract are not permitting the erection of shacks, tenements or the selling of land to undesirable neighbors.

## OVER 140 LOTS SOLD

There now remain about eighty lots to be sold. The time to buy is now while you still have a choice of the better lots.
